

**Peace and Protest Songs for the Alto Kalimba**  
Mark Holdaway      [www.kalimbamagic.com](http://www.kalimbamagic.com)

Included in this instructional download:

\* Tablature PDFs for 30 songs - a total of 53 pages of music for the Hugh Tracey Alto Kalimba.

\* KTabS (.ktb) files for each song. You can play these on your Windows computer using the KTabS (Kalimba Tablature Software) program, the very program which I used to write them out. You can change the MIDI sound of the "kalimba" in the program, adjust the playback tempo, add repeats, cut and paste and rearrange, add harmonies, snip out notes you don't like. Or just play it back as is, letting' KTabS scroll up the tablature as it highlights the notes you should be playing and sounding them out of your computer speakers.

\* MP3's are not included in this download at this time.
